

Orthopedic/Biologics Distributors

Biologica Technologies, an innovator in allograft tissue processing methods, is dedicated to being an industry leader with the release of our **ProteiOS**[®] and **OsseoGEN**[®] technologies. We are currently looking for motivated **Independent (1099) Orthopedic/Biologics Distributors** within the Ortho/Spine/Foot & Ankle markets to sell these very unique products.

- Both products have applications in spine, foot/ankle and general ortho/trauma
- Both contain the highest amount of allogeneic derived growth factors within their respective product categories
- We provide a very strong commission structure, product training and sales support
